

Water Heaters

High Capacity Water Heaters

Wide range of robust tanks suitable for harsh marine conditions

Features and Benefits

- **Multiple versions to suit your installation**
 - Combination electric/heat exchanger or electric only models available
 - Available for 120V and 240V
 - Wide range of capacities available - 3, 6, 11, 20 or 28 gals
- **Robust Manufacturing**
 - Hold down brackets welded to inner tank
 - Double wall heat exchangers
- **Safety controls**
 - Integrated pressure relief valve
 - Temperature and pressure drain tube included
- **Magnesium anodes available separately**
 - Recommended for longer tank life
- **Sturdy, robust exteriors**
 - Produced from marine galvanized steel with optional stainless steel or epoxy coated available
- **Ignition protected**

Robust
- Marine galvanized steel casing, stainless steel or epoxy coated models available

Large 3/4" drain valve

Easy to use
- Fixed temperature controls for peace of mind
